"Shows the Hunter Valley through the eyes of those who know it best."

"The guide gets you under the skin of the destination, immersing you in its character without having your head buried in a map. I had my eyes opened to some hidden gems even though I'm a local who has been making vineyard treks for 40 years."

Newcastle Herald

"Stop at anytime, make detours, pretty much do whatever you like and the device will adapt to its surroundings."

CNET

"Fascinating and informative commentary delivered with warmth and humour. I enjoyed it so much, I could have spent an entire day on each tour."
